 **Patty**
Sunday at 2:04 pm

I don't understand why some girls at my school want to spend time on doing makeup. During the break, they get into the restroom to put on lipsticks and eyeshadows. They look into the mirror from the right side and turn around to the left side. I can't even wash my hands after I use the restroom. Everyone likes to look nice and pretty. When you are healthy, you look nice and pretty. Lipsticks and eyeshadows make nothing special.

 **Amanda**

Makeup can't change our lives, but it helps us look better. When I look terrible from going to bed late, I put on a little lipsticks and eyeshadows. It lights up my face and makes me feel good. What is a good day? To me, a good day comes when I look good. So, what's wrong with doing makeup?
